Supervisor Fish said Local Law 6 of 2026 would define “distribution centers” and “warehouses” in the Town code. He said this was important because the Town was receiving calls about properties in the Industrial Park. The Town Clerk read:

Reed Antis asked for clarification on what would change with this law. Building, Planning & Development (BPD) Coordinator Westfall explained that when the M1 zone was redefined, warehousing and distribution were meant to be separate. He said the intention was for a distribution center to be allowed in the M2 zone, because a distribution center, like those in Wilton, involve lots of truck traffic coming and going. He said a warehouse is more for the storage of items in bulk, and would be permissible in the M1 zone.

The Town Clerk read:

“Having opened a public hearing to accept comments regarding local law 6 of 2026,

BE IT RESOLVED that the Town Board hereby closes said public hearing.”

BUILDING & GROUNDS

Supervisor Fish said that buildings and grounds had always been part of the Recreation Department's responsibilities, and that they were looking at creating a separate Buildings & Grounds Department for 2027 which would allow the Recreation Director to focus on recreation duties. Toward that end, he said they were

separating the department responsibilities and having one of the laborers focus on that. The Supervisor said this would not impact the budget, since these tasks were budgeted for under the Recreation budget.

Discussion: Councilmember Donohue said they was certainly enough work to warrant a separate department, with wintertime snow removal, maintenance of physical facilities, and to assist with repairs. He added the Building & Grounds team would be responsible not just for Town Hall, but also Highway garages, and plumbing repairs at the Recreation Park. He said mowing would also be done by that team.

The Town Clerk read the following resolution:

The BOCES agreement was up for consideration, the Supervisor said, and that both the Hudson Falls and Saratoga facilities were listed in it. With a new trail and access road in the plans for the Betar Recreation Park, the BOCES students would be a huge help.

Discussion: Councilmember Donohue said it was a win-win situation, that the program saved the Town a lot of money but assisting with a new parking lot, and gives the students real experience with the heavy machinery. He said he was glad they were willing to renew the agreement for 2027. Councilmembers Killian and Garrant agreed.

Supervisor Fish said the next nearest place to take the materials that used to be processed in Hudson Falls would be Fulton County.

He showed a photo of the Town Hall entry door, which does not close properly, and a large opening between the front of the BPD Office and the Code Inspector/Enforcement Officers' space where a wall and door should be. He said they would go out to bid for a contractor for these changes and repairs.

SUPERVISOR'S ITEMS

Industrial Park

The Supervisor said the Town published a press release promoting parcels in the Industrial Park and there had been lots of interest. He said one company was interested in three parcels, so the Board needed to declare lead Agency, and set a public hearing. He said the sale would be subject to permissive referendum. The Clerk read:

"BE IT RESOLVED that the Town Board hereby declares lead agency for the proposed sale of three parcels totaling 10.68 acres in the Moreau Industrial Park and classifies this as an unlisted action under SEQR."

Discussion: The Supervisor asked the Town Clerk how keys were distributed to employees. She said when a new employee is hired, the keys from the previous employee in the same role are given to the new employee. She said sometimes what the previous employee's keys are for, and once that is determined, the keys are provided. The Supervisor clarified that the keys are issued from the Town Clerk's office. Town Clerk Trombley confirmed this and said there was a log of keys. The Supervisor said he wanted a notice to go out to all departments so the Town knows where all the keys are, and if someone leaves, we will know if they did not return their keys.

Councilmember Donohue suggested that each employee should sign a document that says they will return their keys when they leave the Town. The Clerk said there is such a document in use, and that he could review it the next time the Councilmember was in the office to see if he felt it needed to be amended.
