## **Notice of Petition to Amend Certificate of Environmental Compatibility and Public Need for Champlain Hudson Power Express Project**

On April 18, 2013, the NYS Public Service Commission (Commission) issued to Champlain Hudson Power Express (CHPE) a Certificate of Environmental Compatibility and Public Need (Certificate), pursuant to Article VII of the Public Service Law (PSL), to construct and operate an electric transmission project known as the Champlain Hudson Power Express Project. On February 9, 2024, CHPE filed a Petition with the Commission to amend the Certificate to address burial in the Maintained Federal Navigation Channel.

The Petition to Amend the Certificate seeks the modification of Certificate Condition 95(a)(i)'s burial depth requirement in the Maintained Federal Navigation Channel. The request seeks to revise the Article VII Certificate requirements to match those imposed by the United States Army Corps of Engineers in the federal permit issued to the CHPE Project from that agency.

The full Commission docket for the Project, including the text of the Petition, can be accessed via the Commission's website at: <http://documents.dps.ny.gov/public/MatterManagement/CaseMaster.aspx?MatterCaseNo=10-T-0139>.

Comments on the Petition may be submitted to Michelle Phillips, Secretary to the Commission, by email at [secretary@dps.ny.gov](mailto:secretary@dps.ny.gov) or by mail to Michelle Phillips, Secretary, NYS Public Service Commission, 3 Empire State Plaza, Albany, NY, 12223. All comments should reference Case Number 10-T-0139.
