

**\*\* NEWLY ESTABLISHED \*\***  
**2022 Moreau Community Garden**

Interested in growing your own vegetables, flowers and herbs but don't have the space? New to gardening and looking for some hands-on guidance? Want to garden with the support of fellow gardeners in a community-type atmosphere? A new gardening opportunity awaits you!

The Town of Moreau Recreation Department is building raised beds each measuring 4x12 feet to establish a community garden at the Harry J. Betar Jr. Park at Moreau Recreation.

Beds are open to individuals, families, youth groups, civic organizations, senior groups, and local businesses. All levels of gardeners are welcome - from novice to experienced.

The site is equipped with water, tools, and a shed, with plans to establish a compost system. Some seeds and transplants will be available this season to help you get your plot started.

A Master Gardener is available for workshops, guidance, and consultations at the garden.

If interested in a plot, contact the Recreation Department by email [recreation@townofmoreau.org](mailto:recreation@townofmoreau.org) or by phone 518-538-0136. Plots will be assigned on a first-come, first-served basis.
